- *Are you interested in learning specific strategies to teach diverse learners?
- *Do you have a passion for helping children and an optimistic, fun personality?

***** **We are hiring for Part Time Behavior Technicians!** *****

Who We Are

We are a private practice providing Applied Behavior Analysis (ABA) services to children with autism in our center here on James Island. We are problem solvers committed to making therapy fun and natural while helping our children and families reach their goals. We believe our therapists are our best asset and strive to create a supportive atmosphere of balance and respect for all our clients and technicians.

Job Summary

We are a growing company seeking new and experienced Registered Behavior Technicians (RBT's) / behavior specialists to work one on one, providing ABA therapy to children with autism in our center. Hours and schedules are flexible. We offer competitive pay, and all sessions take place in our center on Folly Road, Blossom House. Here, you will find we work closely as a collaborative team to improve the lives of our amazing children. We foster a positive work environment where we enjoy coming to work every day.

What It Looks Like

The Registered Behavior Technician (RBT) will work under the supervision of a Board-Certified Behavior Analyst (BCBA) to directly implement an individualized program for children with autism. While we treat mostly younger children, our children range from ages 2-12 and their abilities span the spectrum of autism. We target a broad range of goals depending on each child's needs. These include language acquisition and communication skills, social and play skills, self-help, daily living activities and teaching replacement behaviors. The Behavior Technician will work 1:1 directly with children, implement their program, and collect data. Technicians will also communicate with parents and team members directly. Strong communication skills, professionalism, and organization are required. All training is provided and ongoing. Background check,

CPR/First-Aid certification and TB test required. RBT credential is required within 90 days of hire.

Please only apply if you can commit at least a year to the position. Training is intensive, and our children get attached to their therapists. This is **NOT a short-term position**. Opportunities for continued career growth are available. **Because we are a small practice, applicants must be OK with starting part time and building to full time if desired.**

Qualifications Education or psychology majors/background preferred. Experience with children is required.

Hours Morning and mid-day hours are needed! (8:00am-2:30pm)

Pay Starting pay is \$15-\$25 hr. depending on experience

To Apply

Complete the attached job application or visit us online www.blossombehavior.com and email to Gretchen@blossombehavior.com In your email, please detail your experience working with children, education, and any other relevant work experiences to be considered for the position. Please be sure to include your current availability/desired hours per week.

We look forward to talking with you!
